### PROFESSIONAL SUMMARY

---

I am a third-year Computer Science student and the top of my class at the Faculty of Science and Technology, Tissemsilt University. Passionate about web development, I have a strong foundation in HTML, CSS, and JavaScript, with hands-on experience in modern technologies like React, MongoDB, and Node.js. I actively work on projects that enhance my front-end and back-end development skills, utilizing frameworks like Bootstrap and Tailwind CSS, along with databases such as MySQL and MongoDB. Beyond technical skills, I am highly motivated, detail-oriented, and always eager to learn new technologies. I enjoy solving complex problems, building interactive user interfaces, and optimizing database performance. My curiosity and adaptability drive me to continuously improve and take on new challenges in software development.

Now, I am looking for an opportunity to apply my skills in a professional setting, contribute to impactful projects, and grow as a software engineer
